

Associate Lighting Designer | Walt Disney Imagineering | 01/19 – 12/20

- Responsible for Lighting Design and Design Sustainment for Walt Disney World and Cruise Line.
- Designed and led implementation of Lighting Designs with budgets ranging from 10K to 1.5M
- Negotiated extensively with outside contractors and vendors to select project appropriate equipment
- Used AutoCAD and Revit to review existing construction and to design new lighting elements.
- Navigated complex intra-company team divisions to ensure communication and correct implementation of lighting designs.

Lighting Design Professional Intern | Disney Parks Live Entertainment| 06/18 – 12/18

- Responsible for Assisting Live Entertainment Lighting Designs across Walt Disney World Property
- Coordinated on-site lighting design implementations between hundreds of technicians and teams.
- Used AutoCAD and Revit to create complex Lighting Designs and surrounding structural elements.

Lighting Design and Production Intern | Atmosphere Lighting DC | 05/17 – 08/17

- Responsible for Assisting with and Designing Event Lighting Designs in/around the DC area.
- Coordinated and worked with Lighting Designs at sensitive locations including four Smithsonian locations, various military bases, event halls, hotel ballrooms, and government buildings including the White House.
